

PRECISION BUILT EYEWEAR

Photochromic series

PHOTOCHROMIC CHANGE OVER TIME

GREY
(VLT: 35% - 12%)

ROSE
(VLT: 35% - 12%)

Photochromic Series adjust with you throughout the day, sun-up, sun-down, indoors or out. Just as your eyes strain when gazing through excessive bright light, they do the same when attempting to focus and capture images in low light conditions. Variable-Lite Photochromics provide comfortable vision in a full range of light and dark conditions and free your eyes of unnecessary stress and fatigue.
